

The Director of Central Intelligence

Washington, D.C. 20505

25X1

31 AUG 1983

The Honorable Peter McPherson
Administrator
Agency for International Development
320 21st St., NW
Washington, D.C. 20523

Dear Mr. McPherson:

I am enclosing a copy of the National HUMINT Collection Plan on International Narcotics for your personal review. The Plan is based on the conclusions and recommendations of the narcotics intelligence community and was developed under the general auspices of the National Intelligence Officer for Narcotics. Its essential purpose is to provide broad intelligence collection guidance for the Intelligence Community consistent with my duties and responsibilities to the President and the National Security Council as detailed in Executive Order 12333.

The Plan also provides advisory tasking of US Government organizations which are not part of the National Foreign Intelligence Program (NFIP). As you know, AID has taken a strong interest in the Plan's development as have several other non-NFIP agencies such as the Drug Enforcement Administration, US Coast Guard, Customs, USIA, and the State INM Bureau.

As the President's primary adviser on national foreign intelligence, I am particularly concerned that the collection of information on international narcotics activities receives the highest priority attention. In this regard, the coordination and participation of NFIP and non-NFIP elements in the country-team narcotics collection effort of individual Missions is of singular importance.

I am requesting that the Department of State provide a regular forum for developing and monitoring a comprehensive Mission all-source narcotics intelligence collection strategy and for resolving any coordination problems which might develop. It is imperative that regularly scheduled meetings are held in order to ensure the most effective use of resources and that relevant country team members.

are aware of each other's respective collection needs and responsibilities. As the HUMINT Plan suggests, the Annual Narcotics Situation

Report, which all missions are required to submit, should reflect the full narcotics intelligence resources of the Mission. In addition, I would strongly endorse the preparation of periodic mission assessments of narcotics developments on a regular basis.

I am cognizant of your agency's sensitivity concerning any implication or inference that it is involved in intelligence gathering. As you will note, by agreement with appropriate staff elements within AID, the agency is not included by name as a collector in the National HUMINT Collection Plan on International Narcotics. However, AID is aware of the objectives in the Collection Plan for which it has agreed to be responsive within the general country team narcotics effort. I personally believe that because of AID's unique role in key narcotics producing countries it can provide an unusually perceptive insight to the overall Mission narcotics effort. I welcome your comments and am asking you to provide a written description of AID's ability to respond to the collection objectives (1, 3, 4, 5, and 8) for which it has accepted responsibility.

In conclusion, I would like to stress that it is of the utmost importance to be able to assure responsible members of the Executive and Legislative Branches that the priority the President attaches to the narcotics issue has been communicated directly to both intelligence and non-intelligence elements of the US Government. The attached HUMINT collection study represents a concerted effort by the Intelligence Community to meet this objective. It will require, however, your strong support and active participation for its effective implementation. In this regard, I know I can count on your personal lead.

Sincerely,

25X1

John N. McMahon
